DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Since this reissue application contains only original unamended claims that are allowable first (and no "error" under 35 U.S.C. 251 exists), further action in this reissue application will be suspended to await examination in the divisional reissue application(s) containing the added new claims. The Office will not allow claims in a reissue application which does not correct any error in the original patent. The suspension will be for 6 months at which time the applicant will contact the examiner for action on the application. If the other divisional application(s) are not yet ready for allowance at that time, another suspension will be given.

Once a divisional reissue application containing the added claims is examined and becomes allowable, the examiner will rejoin the two sets of examined and allowable claims into a single reissue application for issuance. Unless applicant requests to the contrary prior to the examiner's rejoinder of the claims, the claims will be rejoined in the first reissue application (containing the pending original patent claims), and the divisional reissue application will be held abandoned. See MPEP § 1451 for additional discussion for presenting multiple reissue applications.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Calderola can be reached on 571-272-1444. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
